Miami Valley Radio Control Club

Issue 5

"1960"

December, 2014

President – Bob Moorman

From the Prez:

I just wanted to thank everyone for a fun flying year. Hopefully, this next year will be even better, starting off with the Freeze Fly on January 1, 2015. The clubhouse will be nice and warm and there will be lots of breakfast food so, please, come out and join us. We'll start cooking about 9 a.m. and flying will start after that.

Scott Brandenburg will be at the Freeze Fly to take the membership forms and dues.

Treasurer – Tim Knapp

Tim is working on a new way to make it easier to track memberships from year to year. He had trash removal and service on the portable potty stopped until April 1. Details of the treasurer's report can be found on our website.

Scott Brandenburg – Secretary

Scott took the flag down and cleaned out the refrigerator for the end of the season. He took memberships and said renewals are pretty much the same this year compared to last year at this time.

Minutes from the November 21 meeting:

This was the election meeting and since Bob Christopher removed his name from the election, it was voted to approve the board as it is. Kent Forsythe made the motion and Tim Herr seconded the motion. It was approved by the membership.

Bob Moorman told the membership about conversations he has had with Otterbein concerning our field and the fact that Warren County is possibly buying it. There was a lot of conversation as to who to contact; AMA, county, President of Otterbein, etc. There doesn't seem to be a rush but the consensus among all present was to start

looking for another field. There are NO details at this time so it is unclear as to whether Otterbein has somewhere else we can go, if we will be reimbursed for our building, runway and any other improvements that have been made or if we will have to move at all. It was decided to form a committee to gather as much information as possible and then the club can decide a direction to take.

Diana Moorman – Newsletter Editor
